Greetings from the Principal

Thank you to everyone who continues to support our school by ensuring that students are following the school dress code, modeling our school values and getting students to school on time. DECD have set the target of 95% attendance rate. So far this year we are sitting on 93% so we haven't reached the target yet and once we do we will need to maintain or improve upon that target. We need your assistance in reaching zero unexplained absences. Currently we have 141 unexplained absences. We are required to enter absence codes and just need to know from parents/carers whether their child is away for illness (I code) or family (F code). This information needs to come from parents/carers either by written note, email or phone message. Please remember to fill in an exemption form, available from the front office for any family holidays during term time.

Governing Council have a great team of parents/carers on the fundraising committee and we encourage you to support our fundraising events this year. SRC will be exploring making some recommendations for what the funds raised this year will provide for and we will share that information when finalized.

Our school enrolments are up to 485 and growing. Thank you to everyone who promotes our school in a positive way. Together we can continue our improvement journey to be the best teaching and learning environment that we can be. Thank you for following appropriate procedures for any issues that arise.

Looking forward to school photo day on 30th March. Please make sure that all students are in full school dress code. Looking forward to Sports Day. Please support our first fundraising event for this year with our sports day raffle.

The year 5, 6 & 7 students from C2, C3, C4, I9 and I10 have been working together on Friday afternoons to develop group work and problem solving skills. Last Friday students worked in small teams to decide on 10 items they would consider to be most useful and yet unusual to take on a 3 week camping trip. They had to provide a reason for taking each item. Teams then had to present to the rest of the group the 10 objects chosen and explain why they had chosen them.
